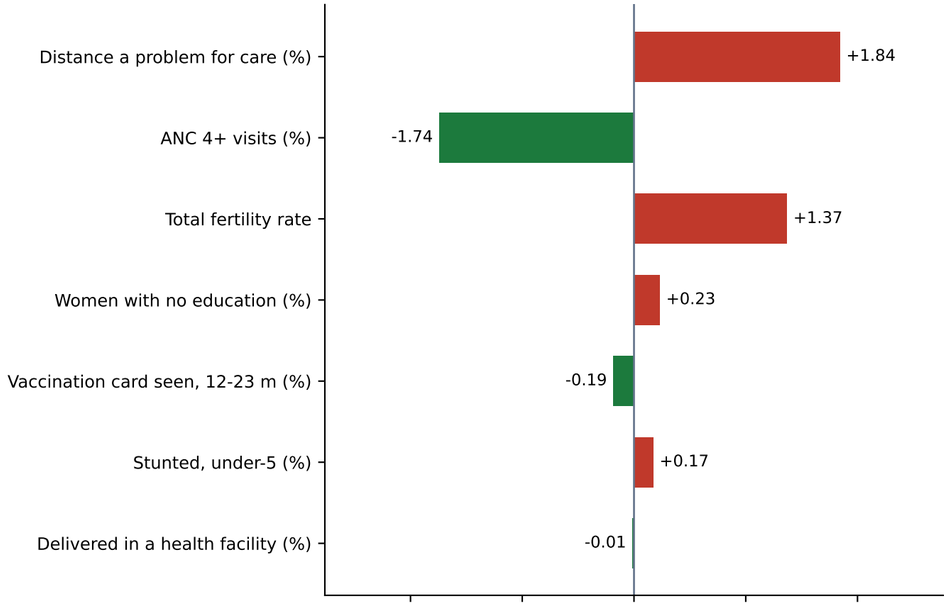
Drivers of dropout across states (LASSO, 2024)

Penta1 to Penta3 dropout

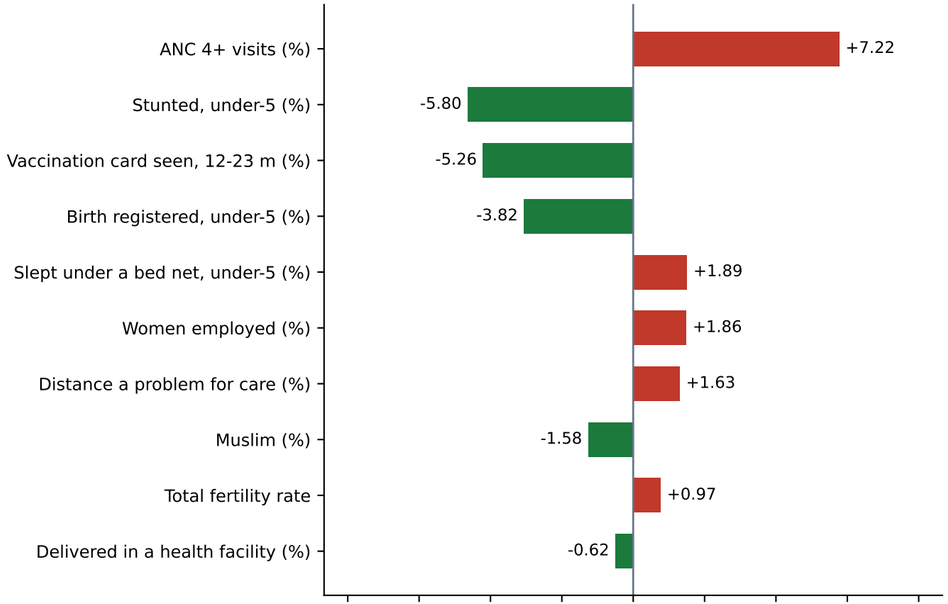
No covariate retained
by the cross-validated LASSO

Standardized LASSO coefficient

Penta1 to Measles1 dropout



Measles1 to Measles2 dropout



Red = associated with higher dropout; green = lower dropout. 37 states; 2024 state dropout from DHIS2 regressed on NDHS state equity covariates (standardized, 5-fold cross-validated LASSO). Ecological associations, not causal effects.
